

7 Most Endangered Programme 2021: Open for Nominations

Do you happen to know an important endangered heritage gem in Europe – such as an historic monument or an ensemble of historic monuments, an archaeological site, a place of worship, an industrial complex, a historic park, a museum or a movable heritage asset? **Then nominate it for the 7 Most Endangered programme 2021!**

[Watch video](#)

Launched in 2013, the 7 Most Endangered programme is a **civil society campaign** to save Europe's endangered heritage. It **raises awareness, prepares independent assessments, proposes recommendations** for action and seeks to rally support to save the selected endangered sites. It does not guarantee direct funding but the listing of an endangered site often serves as a **catalyst and incentive for mobilisation** of the necessary public or private support, including funding.

The 7 Most Endangered programme is run by [Europa Nostra](#) – the European Voice of Civil Society committed to Cultural and Natural Heritage – in partnership with the [European Investment Bank Institute](#) (EIBI). It also has the support of the [Creative Europe](#) programme of the European Union.

In the 2021 edition, for the first time since the launch of the programme, the selected 7 Most Endangered heritage sites will be eligible for an **EIB Heritage Grant** of up to **10,000 euros per site**. The EIB Heritage Grant can be allocated to the eligible selected 7 Most Endangered sites as an assistance for an agreed activity aimed to ensure the saving of the threatened site.

You can nominate endangered heritage with the support of an [organisation](#) in your country that is already a member of Europa Nostra or directly by [joining](#) our pan-European network, as a member or associate organisation or as a new individual member. Members of the [European Heritage Alliance 3.3](#) can also submit a nomination for the programme.

Let's save Europe's endangered heritage sites together!

Read the full [Call for Nominations](#) and fill in the [Nomination Form](#) and email it to sz@europanostra.org (Sara Zanini, 7 Most Endangered Programme Coordinator).

Deadline for submission: 7 September 2020!
